Organization Chart

- **Nature and Extent of involvement of Faculty and students in academic affairs/improvements**

Good. Faculties are involved in all the College level activities

- **Mechanism/Norms and Procedure for democratic/good Governance**

The management recognizes the need for decentralization for the growth of the institute and accords autonomy commensurate with the level of management. Deans and heads are appointed who are given autonomy for efficient governance. The roles and responsibilities of administrators / decision makers for various assigned jobs listed below clearly depict the delegation of authority, providing operational autonomy leading to a decentralized governance system.

Principal

- To implement and monitor the education system to cater to the institute's vision and mission.

Dean Academics

- Is responsible for academic development of the institute and monitors progress of various teaching/learning processes.

Dean R & D

- Monitors Research and Development activities in the institute
